Subject: Vote NO! HB 4856 - Cash Cow for Defense Lawyers, County Prosecutors & Public Libraries.
Importance: High
Sensitivity: Personal

The fines and costs of this bill will finance public libraries at the expense of Michigan Medical Marijuana patients.

Read and contact your Senator today!!!!

This is a very bad bill.

Dear Senators,

If this bill is passed it will be a profit center for defense lawyers and abuse by local, county and state law enforcement officials. All at the expense of the citizens just like a tax. It will also force an immediate repeal through a people driven ballot petition drive. There are people now that go to the local pharmacy and drive on opiates and, there is no companion fine as severe as carrying Marijuana in a sealed container.

There is not a test or has there been one to determine a level of impairment similar to a .08 blood alcohol content. Some people play chess under the influence of Marijuana and do well vs. playing chess under the influence of alcohol.

If the Michigan State Police can donate the use of their test track to us and, use a few select State Troopers to do the comparison test under the influence of Marijuana vs. Alcohol this would be perfect.

We can even get some sample patients to take the same test for statistical verification and elimination of data bias.

Otherwise, this bill needs to be placed on hold until the State of Michigan reclassifies Marijuana from a Schedule one drug with no medical value. The people of the State have spoken.

Thank you and vote NO on HB 4856
